

NuForce U192S

High performance
USB to SPDIF Converter

Color

Black

Warranty

1 Year

Product Dimensions

H: 68 mm

W: 38 mm

D: 21 mm

Product Weight

90 g

Included Accessories

USB cable (1 metre)

Selling Points

High performance USB to S/PDIF conversion

Why?

U192S allows any audio device with only S/PDIF input to connect to a computer USB Audio output.

Description

The NuForce U192S is a digital signal converter designed for transforming computer USB audio into a coaxial or optical S/PDIF type commonly encountered in high performance consumer electronics devices.

The NuForce U192S is a digital signal converter designed for transforming digital audio signals presented to the USB port of a computer into a coaxial or optical S/PDIF type commonly encountered in high performance digital-to-analog converters (DACs). The U192S accepts data word lengths of 16 and 24-bits at a maximum sample-rate of 192kHz.
