### OVERVIEW

The **Wharfedale LINTON** represents one of the most iconic models in the long history of **Wharfedale** loudspeakers. A model that embodied the **Wharfedale** pioneering research through the 60s, 70s and 80s, with a bloodline dating back to 1965, **LINTON** has always been manufactured according to the **Wharfedale** principles of quality and value for money. The **new Wharfedale LINTON** further exemplifies these two edicts, balancing fine craftsmanship, natural sound quality and affordability inside a beautifully proportioned loudspeaker that has been bought in its millions right across the globe through its various incarnations.

The original **LINTON** was well known for its warm, rich and natural sounding character and the new **Wharfedale LINTON** retains that standing but imbues it with an open, detailed performance that will entice you to explore your whole music collection, once more.

Capitalising on the modern-day trends of traditional styling with value in pedigree, the **Wharfedale LINTON** is set to be a veritable modern classic.
