

# ADVANCED INFORMATION AE108<sup>2</sup>

**ACOUSTIC ENERGY**  
*for the love of music*

**The AE108<sup>2</sup> is a new, compact, yet extremely powerful active subwoofer with remote control for easy set-up and adjustability.**

Designed to work seamlessly as part of a multi-channel system including the AE100's, AE109's, AE120's and AE107, the AE108<sup>2</sup> is ideal for the modern home where controlled bass performance is required without compromising the living space.

At less than one cubic foot in size, the AE108<sup>2</sup> can be positioned discretely and adjusted with the supplied remote control to achieve the ideal audio balance from the listening position. Finished in a choice of satin black or walnut vinyl veneer finishes, the AE108<sup>2</sup> delivers a bass punch that belies its compact size.
