## S5-4 Audio rack

Width of 584 mm (23,0 inches), Depth of 430 mm (16,9 inches) and 1010 mm of Height (39,7 inches)  
Inner shelves dimensions of Width 500 mm (19,68 inches) and Depth of 430 mm (16,9 inches) for all.

"X Plate" width of 450 mm (17,71 in) and depth of 405 mm (15,94 in)

# S5 Series

*Drawing from the prestigious Hyperspike technology, we have created this new S5 Series. The solid and essential structure provides excellent audio performance and its modularity allows you to enhance and customize the space between the shelves. For maximum performance, here there's a special anti-vibration system: the special structural shelf sustains another which rests on four adjustable Solidsteel cones. Stem in painted aluminum and filled with special damping material for a good "tune" with the shelves. The mdf shelves have 30 mm (1,18 inch) of thickness. Pads provided. All components of S5 Series are compatible with standard HJ and HS Hyperspike.*
